St.Petersburg, FL - Relocatable

SUMMARY OF EXPERIENCE

After graduating high school, I worked as a nail technician for several years without a clear idea of what I wanted to pursue in college. Instead, I decided to work full-time and live with relatives to save money. During that time, I purchased my first personal computer, which led to my interest in cybersecurity. I pursued self-study using many different resources such as OverTheWire, OpenSecurityTraining, TryHackMe, and HackTheBox, eventually ranking in the top 1% on TryHackMe and the top 500 globally on HackTheBox. Since then, I have earned several industry certifications and am currently pursuing a Bachelor's degree in cybersecurity. I'm passionate about continuous learning and am looking for a work environment that will allow me to contribute to the field in a meaningful way and grow as a cybersecurity professional.

EDUCATION & CERTIFICATIONS

Western Governors University December 2022 – (expected) November 2023

Bachelor's of Science, Cybersecurity and Information Assurance

eCPPTv2 eLearnSecurity June 2022

eLearnSecurity Certified Professional Penetration Tester

Security+ CompTIA March 2022

PROFESSIONAL EXPERIENCE

Huntr.dev, Remote June 2022 – December 2022

Freelance Security Researcher

- Performed white-box security testing on open-source software
- Performed code review on php, goLang and c# applications
- Discovered and reported OWASP Top 10 vulnerabilities
- Performed dynamic analysis on command-line utilities

Modern Nails of Tampa, 10067 W Hillsborough Ave May 2018 – March 2022

Nail Technician

COMPUTER LANGUAGES AND SKILLS

Languages

- Limited but improving: Bash, Golang, Python, and Powershell
- I have reverse engineered applications written in C using a working knowledge of x86 ASM

Skills

- Web application testing and OWASP Top 10 2021
- Network testing and exploitation
- Custom exploit development
- Routing, pivoting and tunneling
- Windows and Linux privilege escalation
- Fuzzing with coverage-guided fuzzers such as AFL++

PROJECTS AND OTHER SECURITY EXPERIENCE

Web Presence

- **Website:** <https://eli2k.com>
- **Github:** <https://github.com/Eli2k765>
- **HackTheBox:** [Eli2k765](#)
- **Tryhackme:** <https://tryhackme.com/p/Eli2k765>

OS and Tools

- **OS:** Linux(Arch, Kali, NixOS, Android), Windows(XP, 7, 10, 11)
- **Network exploitation tools:** Metasploit, nmap, dig, nslookup
- **Web tools:** Burp Suite, Owasp ZAP, sqlmap, gobuster, dirbuster, feroxbuster, httpprobe, assetfinder, waybackurls, and amass
- **Tunneling tools:** proxychains-ng, chisel, and sshuttle
- **Reversing tools:** gdb-peda, Ghidra, Immunity, pwntools, AFL++, and valgrind
- **Virtualization tools:** VirtualBox, VMWare, WSL, Android Studio, Genymotion
- and more...

CVEs

- [CVE-2022-3135](#) - Null Dereference in vim

Additional Certs

- **CompTIA:** A+, Network+, Project+
- **ITIL:** ITILv4 Foundations

Certs In-Progress

- **Portswigger:** Burp Suite Certified Practitioner
- **Offensive Security:** Offensive Security Certified Expert
